

Fixing the dreaded "Password Attempts Exceeded" error message.

If you are having problems getting FarmallCub.Com to accept your password or password reset, it is most likely caused by having entered an incorrect password more than three times. At that point, the forum software will lock your account and force you to answer a simple security question.

By entering your member ID and password a second time and answering the security question, you can get logged into the site again.

NOTE: Some spammers use internet bots (robots) to attempt to login to members accounts in order to post their spam advertising using your good name -- the security question stops them dead in their tracks, however, it leaves you locked out too.

To get back on, please follow the simple steps outlined below.

If by chance it fails, perhaps you have forgotten your password or are entering it incorrectly. (REMEMBER: Passwords are always CaSe sensitive!) If you do not recall your password, use the reset password link on the login page.

If all else fails (sometimes it just won't work for whatever reason), please contact me at Cub@farmallcub.com

NOTE: Username & password
fields are now blank.

Login Attempts Exceeded Error message
is displayed.

This is caused by 3 or more failed password
attempts – sometimes, internet spam-bots
can cause this by attempting to guess your
password. (Strong passwords are our best
protection from these spammer attempts.)

← **Re-Enter your member ID and password (second time).**

← **You MUST also answer the security question or the system will continue to lock you out. (This is necessary to ensure you are a person and not an internet spammer bot.)**

← **If you are on a private computer (not shared, like a library or work), check this box so you do not have to enter your ID/Password on each visit.**

← **After completing the above, click the login button.**
